

CHEF 15

Mechanical Warewash Detergent, High Temperature

DESCRIPTION

INO CHEF 15 is a liquid, heavy-duty detergent for automatic programmable pump systems. It delivers superior results in both hard and soft water when used as recommended by your representative. Intended for use in high-temperature dishwashing machines.

BENEFITS

Powerful Degreaser

Specialized formula designed to eliminate even the toughest grease on food service surfaces.

Sparkling Clean Every Time

Rapidly dissolves and lifts dirt, oil, and grease with ease.

Odourless formula

Ideal for repeated use in sensitive areas such as open kitchens.

Cost-Effective

Speeds up the process by considerably reducing drying time.

FEATURES

Active Ingredients:	Sodium hydroxide
Colour:	Red
Fragrance:	Odourless
pH:	13-14
Recommended water temperature:	82°C (180°F)

INSTRUCTIONS FOR USE

Automatic Dosage On Pump System.

Consult our technicians for the pumps calibration.

All food-contact surfaces must be thoroughly rinsed with potable water after cleaning. Prevent cross-contamination by ensuring food products are adequately protected during both storage and application.
